From the Desk of Eric Oschwald  
AMBUCS Past National President - 2017

To whom it concerns:

I have been asked by Angela Labrecque to provide a letter of recommendation on her behalf. I am happy to do so.

I have known Angela for over 6 years, all through her tenure with National AMBUCS. I came onto the board of National AMBUCS approximately the same time Angela was hired. I was impressed with her ability to listen to the concerns of a large board and bring immediate deliverables that focused on our mission and not a board member's agenda, which is never easy.

As a past National President of AMBUCS, I had the opportunity to work closely with Angela. Her talent, knowledge and experience were quickly put to use as she was immediately saddled with bringing new life into our antiquated web site. This assignment was in addition to her other marketing responsibilities of a preparing a quarterly magazine, attending many tradeshow, making our resource center more efficient and assisting AMBUC chapters on their needs. Every time I thought she was on 'work overload' she seemed to rise above and deliver.

I am most proud of Angela and her peers as we went through a period of transition. Our executive director of 27 years retired. As we peeled the layers back on his legacy, we found gaps in policies and procedures for our organization. Angela was extremely instrumental in working with me and the executive committee on getting our house back in order, which made the transition of our new executive director much easier.

I am very proud of Angela and can honestly say she will do great in whatever she sets her mind and heart to.

Respectfully submitted,

Eric Oschwald
